

# Mintec Analytics 2.5

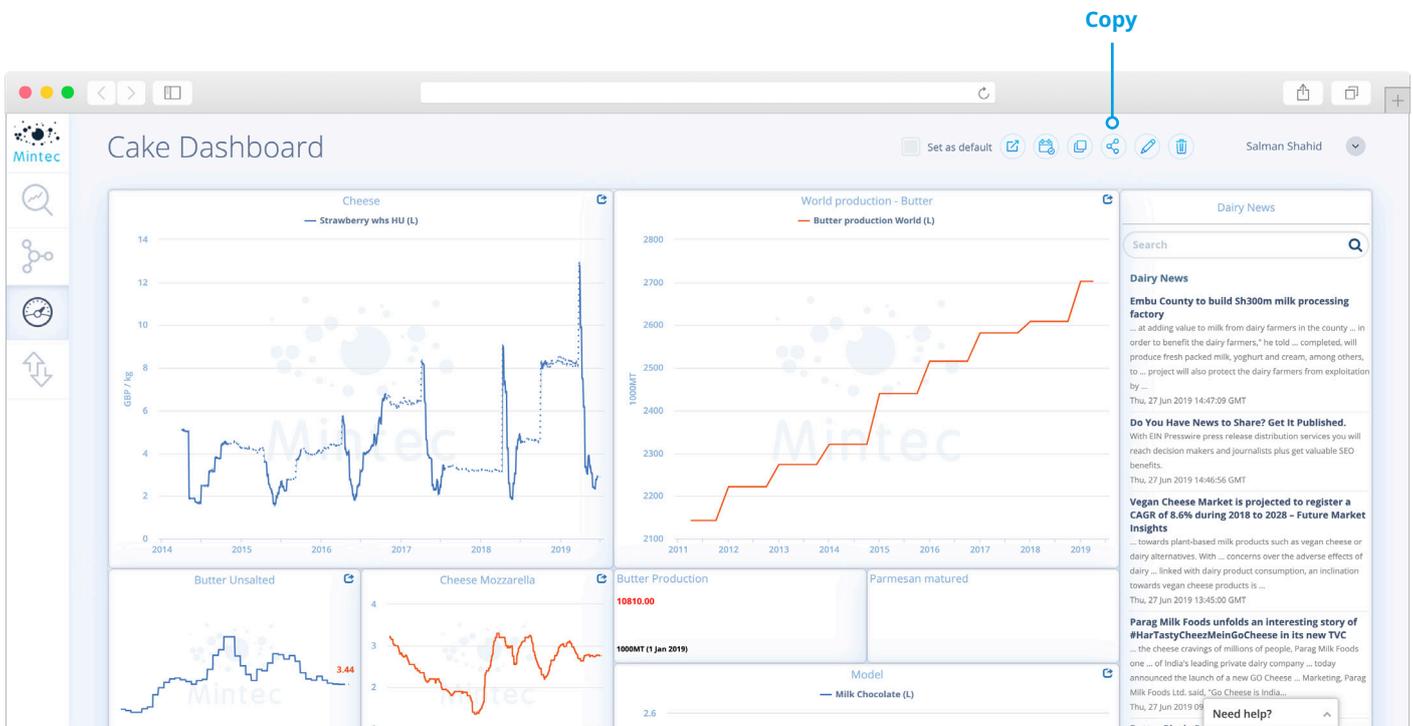

## Release Notes

This document provides information on the new features, enhancements, improvements and bug fixes for this release.

### New Features

#### Ability to clone/copy of shared/own dashboards and models

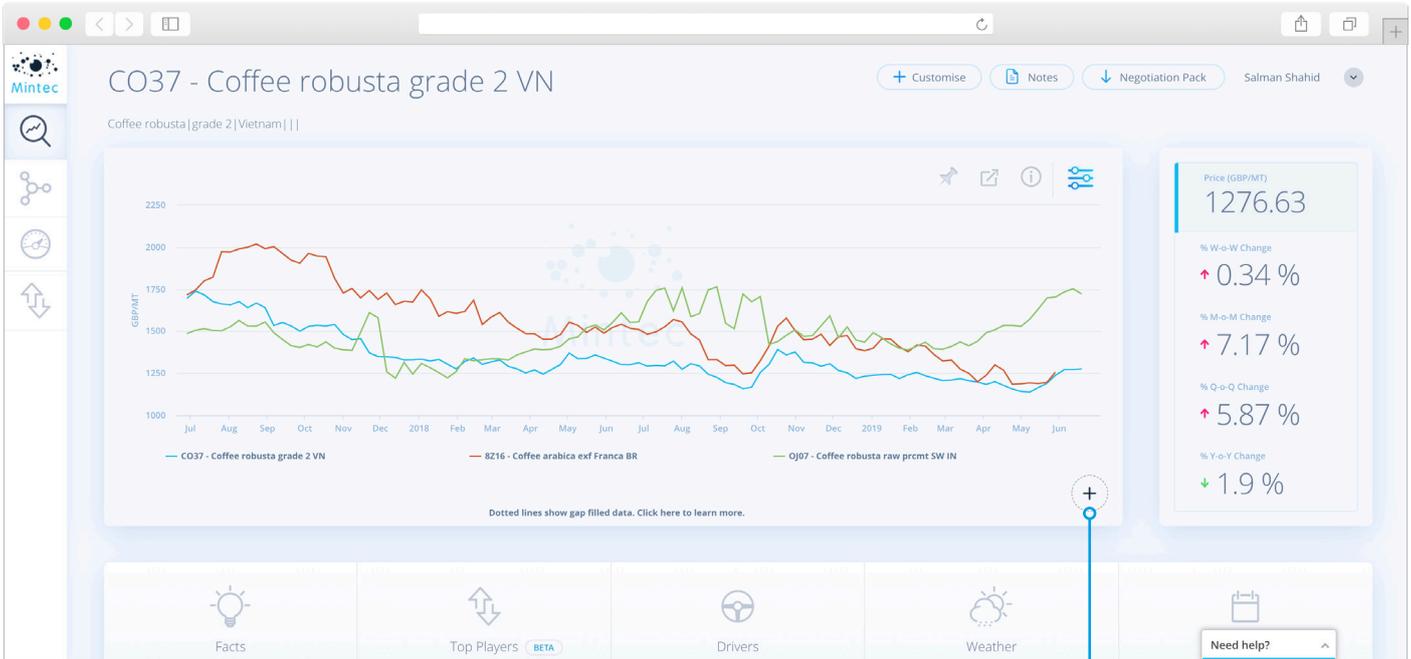

You have ability to copy your own dashboards, cost models and also the dashboards or models that have been shared with you. The Copy button has been added to quickly enable copy/clone functionality for dashboards and models. Copied dashboards are editable as per your needs.

## Multiple series comparison on Commodity chart

This functionality enables you to add multiple series to a Commodity dashboard for quick comparison. Up to 5 series can be added to commodity chart. PDF/PNG and Excel downloads will give you snapshot of your commodity chart. Clicking on each series will show specific price movements for that particular series.

Adding multiple series to commodity chart will allow you to perform additional analysis like Correlation & Difference on the Commodity chart.

Add series

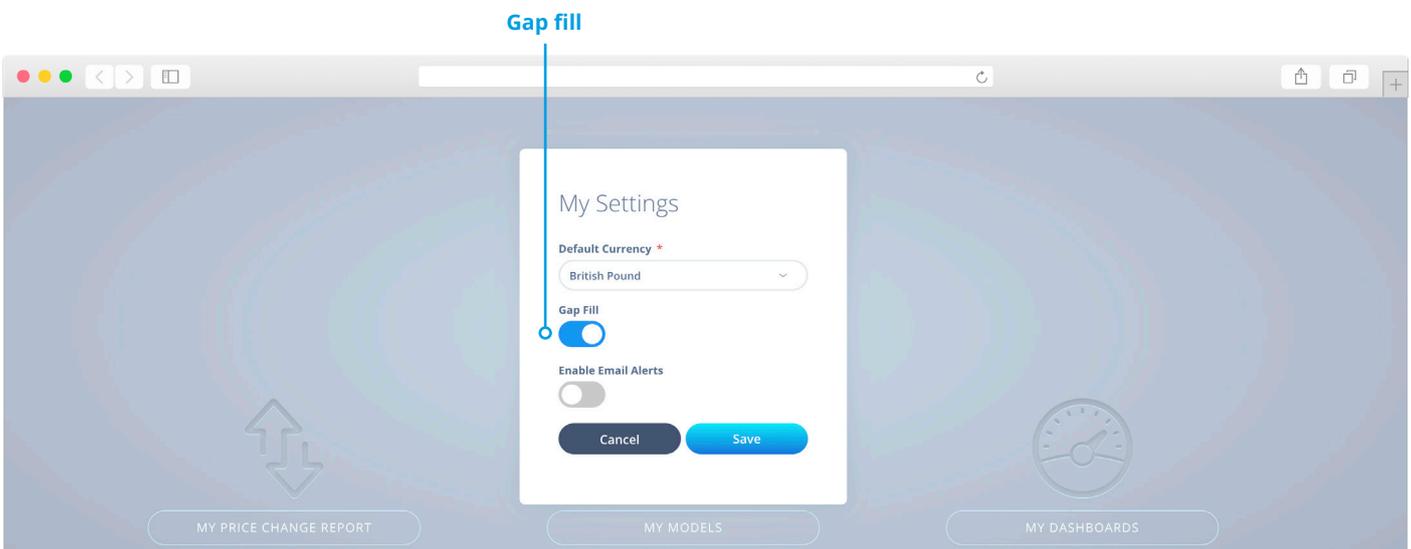

## Data export from Seasonality widget

Export icon added to Seasonality widget to download data to Excel spreadsheet.

## Gap fill as user preference

Gap fill option available from "My Settings" which can be set as a global preference. By default, this option is Off. Once set this will be applicable to Commodity dashboard, Cost Model and Customised dashboard.

This setting can be overwritten individually via the Settings on the commodity and customised chart.

# Enhancements/Improvements

## System performance

As well as improving performance and speed across the platform, we have also made specific improvements to Cost Models.

## Price column addition on Top Players tab

You can view the latest price/date for the top player series. This will also be reflected in Negotiation Pack download.

## 2 year date range by default

Default date range set to 2 years on Commodity, Model and Customised dashboard. This is helpful when viewing annual data on the chart.

## Additional coverage for Top producers/exporters

Top producers/exporters country names are shown as bullet points when the global production or the top producers & exporters production is not available.

## Mintec RSS feeds

Mintec have created RSS feeds to help you keep up to date with market news, they are now available in Mintec Analytics.

The screenshot shows a web browser window with a 'Mintec' sidebar on the left. The main content area is titled 'Add Mintec Standard RSS Feed'. On the left side of this dialog, there is a 'CREATE A WIDGET' button and a search bar for 'Search Feed type'. Two options are listed: 'User-defined' and 'Mintec Standard RSS Feed'. The main area contains a search bar with 'Title or Description' and an 'Advanced' filter. Below this is a table of RSS feeds:

Feed Title	Description	Feed URL
<input type="checkbox"/> AA_All news	All Mintec insight news	<a href="http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee71ba8a93f835548b4567.xml">http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee71ba8a93f835548b4567.xml</a>
<input type="checkbox"/> AA_Beverage news	Mintec Insight news: Beverages (such as Coffee, Tea, Juices)	<a href="http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6f4c8a93f8453c8b4567.xml">http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6f4c8a93f8453c8b4567.xml</a>
<input type="checkbox"/> AA_Dairy and eggs news	Mintec insight news: Dairy & Eggs (such as Butter, Cheese, WMP, SMP, Milk, Eggs)	<a href="http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6f958a93f8383e8b4567.xml">http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6f958a93f8383e8b4567.xml</a>
<input type="checkbox"/> AA_Fish and seafood news	Mintec insight news: Fish & Seafood (such as Haddock, Cod, Salmon, Tuna, Prawns)	<a href="http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6fc98a93f879428b4567.xml">http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6fc98a93f879428b4567.xml</a>
<input type="checkbox"/> AA_Food ingredients news	Mintec insight news: Food ingredients (such as Sugar, Cocoa, Black pepper, Vanilla, Turmeric, Cumin, Chilli)	<a href="http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6ffa8a93f894448b4567.xml">http://fetchrss.com/rss/5ccae0f38a93f861158b45675cee6ffa8a93f894448b4567.xml</a>

At the bottom of the table, there are pagination controls: « < 1 2 3 4 5 > ». Below the table is a header for a new feed: 'Feed Title', 'Description', 'Feed URL'. At the very bottom, it says 'Please add Feeds above'.

## Bug Fixes

### **Currency/Unit labels are not hidden when you hide series**

Currency/Unit labels are now hidden when a series is hidden.

### **Slow response times when searching via the taxonomy**

Reduced performance when searching via the taxonomy e.g. 'Egg'. Performance has been improved across the platform when searching/adding a series.

### **Negotiation pack download issue specific to Microsoft Edge and Internet Explorer**

When you download a Commodity/Model Negotiation Pack, it opens the downloaded version on top of Mintec Analytics application. The user has to use Back button on the browser to access the application again.

**Error received when trying to move user from one account to another.**

## Known Issues

### **Drivers tab drop-down label update issue. (Internet Explorer only)**

On Drivers tab, when you change the Country in a drop-down list, the spider chart and table is updated but the label of Country on the drop down is not updated.

This will be fixed in next release of Mintec Analytics.

### **Negotiation pack text formatting,**

To be improved in next release of Mintec Analytics.
